THE RULE OF THE PEOPLE IS SLOGAN

(Continued from Page 1)

people cannot come to a sober and deliberate judgment, then it is impossible that they should ever come. If they have not the character and the intelligence to enable them, after two years deliberation, after seeing the whole matter thrashed out by the legislature and before the executive and by the court, and finally by public speakers in an election, to themselves decide what they meant when they framed the constitution, then it is idle to talk of their being fit to frame a constitution.

The wisest of judges have always fully recognized this right of the people to rule; this right of the people to be their own master and ultimately to decide their own policy. As former Chief Justice Campbell, of Michigan, said: "The greatest knowledge that we have in this world is the common knowledge of the common people. I do not propose to give the people any new power. I propose to restore to them the power not of which they have been defrauded, the power which is their right and their duty to exercise. I propose to provide a better and more effective method for the exercise of the power reserved and inherent in the people to make or unmake their constitution, or to amend the constitution in accordance with their well considered needs. I preach to new doctrine."

The proposal that I make for the several states was in actual practice acted upon by the people of this whole nation, but a very short time after the constitution was adopted. The United States district judge, of the eastern district of Arkansas, Judge Price, in 1887, in an article in the American Law Review discussed the decision of the Supreme Court in the United States, when two or three years after it had come into being. It decided that, under the language of the constitution, a state was lawful to be sued in that court by a citizen of another state or of a foreign country. In consequence of this decision, the eleven amendments to the constitution

were adopted. State Judge Price said: "The amendment, it will be noted from the language used, does not aim to change the constitution, nor even add any limitations not in the instrument, but is merely explanatory and in effect reverses the decision of the Supreme court rendered in *Chisholm vs. Georgia*, by declaring that the judicial power of the United States shall not be construed to extend to any suit in the law or equity commenced or prosecuted against one of the United States, reversing and correcting the error of the Supreme court, or by citizens or subjects of any foreign country."

Judge Price also refers to the decision rendered in another case by the Supreme court, through Mr. Justice Bradley, when, in speaking of this eleven amendments, the court said: "This amendment, expressing the will of the ultimate sovereignty of the whole country, reverses to all legislatures and all courts, actually reverses the decision of the Supreme court."

People all themselves. "It thus appears that it has been officially recognized by the Supreme court, as is set forth in the words of Justice Bradley, that the people of the United States have actually conferred for themselves the constitution of the United States, reversing and overruling the decision of the Supreme court, in so doing. All I ask is that what the people of the nation have actually done the people of each state shall actually be allowed to do. Let the power, so secured to them, be a real and not a nominal power, a power which shall not be exercised save after sober and deliberate thought, but which shall permit such sober and deliberate judgment of the people to become, as it should become, the unquestioned law of the land. In consequence, let me ask those who disagree with me, frankly to state whether or not they believe that the people have the right to rule themselves and to settle for themselves the course they wish to pursue as regards

great and vital questions of public policy. If our opponents believe in this, the right of the people, then they must repudiate the principles and the policies of Abraham Lincoln. If they are true to the teachings of Lincoln, if they do believe in the right of the people to rule, then they are bound also to hold that power of the people in the language of Mr. Justice Bradley, speaking for the Supreme court, "is superior to all legislatures and all courts and expresses the will of the ultimate sovereignty of the whole country."

BIG BALM EAGLE FIGHTS.

Huge Bird Caught at Chicago After Hard Battle.

Chicago, Mar. 7.—A big bald eagle, bitten by the bite from the Northwest into the 400 miles on the north-west side, was captured in the south-east by a hard battle.

Victor Vachin and A. P. Koshin discovered the bird and were making preparations to capture it when James Ward, A. L. Adams and his party, Bert Chambers, arrived. The men were held at bay for some time by the eagle's efforts to get its beak and talons.

At last the bird was imprisoned in a box. Its captors then attempted to drive the eagle from the box into a large sack. The bird tipped the sack with one snap of its beak and the eight began all over again, lasting a half hour before it was overpowered again. It is now in the Lincoln Park Zoo, being nursed back to strength.

Halifax strike in East Possible. Toronto, March 8.—A local newspaper says: "A railway strike is a possibility in the near future. The Grand Trunk railway 'served' notice to the men of pay which became effective on January 1st, in breach of the contract. The men are in a protest. Grand Trunk officials are in a panic. They are now making an effort to avert this strike. The men are now agitated by the report."

AMUNDSEN DENIES REPORT THAT SCOTT

Captain Scott's agent in New Zealand expresses the opinion that Capt. Scott must have changed his plans and proceeded with new exploring and scientific work, thus possibly delaying the return of the Terra Nova for some weeks.

Wires to New York Times. New York, Mar. 8.—The New York Times received despatches today from Lord Amundsen at Hobart, Tasmania, saying he knew nothing about Captain Scott, British explorer and his expedition. This message was in reply to one sent by the Times asking Amundsen if he knew anything about Captain Scott. It was brought by a despatch from Hobart published first by London newspapers yesterday.

The effect that Amundsen on his arrival at Hobart had declared that Capt. Scott had discovered the South pole.

Mrs. Scott's Interview. London, Mar. 8.—All the evening papers yesterday displayed "flitting" posters accepting the report of Mrs. Scott's success as correct. One of them printed an interview with Mrs. Scott, who said that no news had reached her which confirmed the report.

"How," she asked, "could Captain Amundsen know it, even assuming it to be correct?" "Thus Capt. Amundsen may be reached of the pole himself," Mrs. Scott added. "No, the message is simply that

Capt. Scott reached the pole, which suggests that he found himself disappointed.

"That I don't see how he could know that unless he had been there himself," Mrs. Scott declared.

"I do not think," Mrs. Scott went on to say, "that Captain Amundsen can possibly know anything about it and even if he did he had no right to disclose the news before Captain Scott made it known."

"Should it be true Mrs. Scott what would be your feelings?"

"Well, feelings of joy and intense relief, of course, but I do not say I feel either because I have no information to justify it."

"I think, too," she went on, "you should publish the statement of Capt. Amundsen with great reserve. If it is not true it will injure Capt. Scott and bring discredit on the country. Other nationalities are striving to find the South pole and if you say Capt. Scott has succeeded and it later turns out to be not true, there is probably no end to what jealousy will prompt them to say. I hope it is true, but at present I dare not believe it."

Reiterated Her Doubts.

In conversation with the New York Times correspondent later Mrs. Scott reiterated the doubts she had expressed in the earlier interview, adding: "I would take my oath my husband would not have entrusted the news to anybody."

At the Royal Geographical society it was pointed out that one reason for distrusting the accuracy of the Wellington report and the statement attributed to Capt. Amundsen was that the Norwegian was at Hobart and not at Wellington. Dr. Scott Kettle, secretary of the Royal Geographical society, said: "I cannot think of Capt. Amundsen making such a statement even if it is true. Personally I do not think the report is true." As a matter of fact, he had not expected to hear from Captain Scott for at least another two weeks.

New York Times Rights. During their trip, Doctor Kettle referred to what he called the pleasant position of the New York Times in having the exclusive American rights to the stories of both Amundsen and Scott.

The mention of Scott and Amundsen, if course, brought up the Peary-Cook story and Dr. Kettle laughed heartily when he heard that Dr. Cook is seeing the New York Times for libel.

"And what Peary doing," he asked, "is not he suing Cook? Have you read Cook's latest book? He calls Peary almost every name in the calendar, just I suppose Peary thinks it more dignified to take no notice of it."

Reckoning by experienced polar explorers some months ago showed it was possible for Captain Scott to have reached the South pole on December 1st, and Captain Amundsen might have been there about the same date. A meeting at the pole Christmas day was therefore possible and one of Jack Verrier's most fantastic dreams would thus have been realized, one explorer reaching the pole and finding another already in possession.

HOCKEY—Calgary Athletic club again defeated by Winnipeg Victorias in a new game—Victorias and Blues in the National Hockey Association during the past winter—Winnipeg and Seattle play on Monday night—Hockey cup against Montreal team on Monday—Winnipeg, who won the championship of hockey school league.

IN GENERAL—Proposition to form a new league between the two teams in the National Hockey Association during the past winter—Winnipeg and Seattle play on Monday night—Hockey cup against Montreal team on Monday—Winnipeg, who won the championship of hockey school league.

NEWS AND REVIEWS.

A week ago Hayley and his manager Bernard, informed the Edmonton Athletic Club that he would be unable to enter the ring for at least a month on account of a broken hand. Maybe his hand is a serious condition but it appears to be alright now for he is confined to meet Pat Scott of Seattle, according to information contained in the Prince Rupert Daily News.

Before leaving Edmonton Hayley had agreed to meet one Charles Riley, a Californian with a big reputation. He then went to the Coast and lived for a while. His hand made it impossible for him to go again for 30 days. Yesterday the Athletic Club received a wire from him saying that he could not meet Riley or anyone else in Edmonton, except under certain terms which were absolutely prohibitive.

When Hayley came to Edmonton last December he needed a match badly and the E. A. C. gave him his chance. He came with reputation and nothing to recommend him. His record was vague and uncertain. He met Lombard and beat him in a bout which resembled a dog fight more than a boxing match but even there he showed some promise. The Athletic Club then secured for him a match with Billy Lauder the Canadian lightweight champion. That was his first match that amounted to anything. It was that bout that first brought him any notice.

Through it the Edmonton Athletic Club gave him his first opportunity to advance in his chosen profession.

When Hayley returned to Edmonton from Saskatoon where he defeated DeCoursey, he entered into an agreement with the E. A. C. to box Billy in Edmonton during March. He then went to the coast to wait until his hand mended. Shortly a wire was received that he could not enter the ring for 30 days and yesterday another message received the Club that he would not box in Edmonton except for a purse of prohibitive dimensions. Truly Hayley is advancing in his profession.

There is no doubt about Hayley's boxing ability. Physically Hayley is enormously powerful but if he is ever going to reach the top of his profession, Hayley will have to learn to live up to his agreements with the promoters of the boxing game.

It is a matter of common knowledge to all athletes in the city to learn that the football league, which is by far the strongest amateur organization in the city, is going to press upon the city commissioners and council the need of an athletic field. At the annual meeting of the committee of three was appointed to take up the question with the proper authorities and if that committee will start action immediately it may possibly be that Edmonton will have the much needed grounds for the coming summer.

BORDEN'S REPLY TO SASKATCHEWAN

Says That If That Province Builds
New Great Railway Line on Prairie
It May Also Be Given Right
of Way.

Ottawa, March 7.—Premier Borden has sent the following telegram to Justice Campbell, Minister of Saskatchewan, in reply to the latter's telegram of yesterday, in which he asked for a right of way for a proposed railway line to be built from Regina to the north-west corner of the province of Saskatchewan.

"In case the province of Saskatchewan should undertake the construction and operation of a state-owned railway to the shores of Hudson Bay, this government will be glad to give to its promoters the most careful and earnest consideration. May I point out, however, that apart from this, the claim of Saskatchewan in the following words: 'After giving due consideration to this claim it seemed to us that as between the claim of the province of Saskatchewan and the territory which lies north of Manitoba and east of Saskatchewan, the weight of argument was certainly in favor of Manitoba, and we could not grant the province of Saskatchewan the right of way we had to ignore it.'"

(Signed) "H. L. Borden."

Nova Scotia Legislature Takes Steps
To Augment Revenues of the
Province.

Halifax, N.S., Mar. 7.—A government measure was introduced in the Nova Scotia legislature this afternoon which will mean something to the banks, financial trust, insurance, telegraph and telephone companies. The bill is entitled "An act to supplement the revenue of the crown in the province of Nova Scotia."

Under its provisions every bank doing business in Nova Scotia and having a capital of \$100,000 and having an office in Halifax shall pay an annual tax of \$1,000 and an additional \$100 for each agency within the province. Less than \$100,000 the tax shall be \$250 in Halifax and \$100 on each agency outside this city.

BRADY FILES ON CLAIM ON THE GHOST RIVER

His Men Still Confident That His
"Find" In Country Is Good—The
Surface Indications, He Says, Tell
Nothing.

Calgary, Mar. 7.—Old man Brady, who has been claiming to have discovered gold on Ghost river, arrived in Calgary yesterday afternoon, and filed on his claim at the land office at ten minutes to five o'clock. Mr. Brady said, in an interview, that the gold was there and he intended working his claim. He will spend his last dollar working it, so confident is he that the gold is there, he says.

He was much amused at the reports in a paper last Saturday, which stated that the whole thing was a "hoax." It is of the opinion that he is in a position to know as much about the find as any man who has been there. So far, nearly all who had staked claims are "feather bed" prospectors, he says. None of them have used a pick.

According to Mr. Brady there is a surface formation on top of the real stuff. Under the sandstone there is as fine quartz as he has seen in any gold field in the world, and he has seen a good many, he declares. Samples of rock from his claim are in the land office, and other samples the Hon. C. W. Fisher of Cochrane has sent to Kingston for analysis.

Mr. Brady went into that part of the country six weeks ago, prospecting for other minerals. It was then that he ran across a silver vein on the Ghost river, which started him prospecting for gold which, he says, he has found.

His claim is on the Ghost river on a part of the N.E. corner of Section 32, and part of the N.W. corner of Section 33, west of the 4th Meridian.

The vein on Mr. Brady's claim is about 10 feet wide, he asserts.

Mr. Brady specially wished to state that he has no interest in inducing others to go to the district. He is satisfied that the claim is so good that it is immaterial to him whether or not any others file claims. He can be his own promoter, he says.

He has no intention to stay right with it.

Ottawa, Mar. 7.—Owing to
the difficulties experienced in
setting proper recruits for the
R. N. W. M. P., and the necessity
of maintaining the present
standard of the force, it is un-
derstood that the government

proposed conditions will have
a beneficial effect on the force.
There will be a corresponding
increase for the officers of the

AROUND THE CITY

LOCAL.

Revelion Bros. have called for tenders for the excavation work on their lot at the corner of Third and Athabasca avenue. The new warehouse will be one of the largest in the city and will be rushed to completion early in the spring.

According to H. W. Sheppard, resident engineer for the C.N.R. at Wolf Creek, who is in the city, concrete work for the company's bridge over the Pembina river will be completed within a couple of months and the steel work erected by the end of July.

The town of Hawit is the latest addition to the Central Alberta Development League. P. T. Fisher, secretary of the league, visited the southern town on Wednesday and addressed a representative meeting of the business men of the town with the result that it was decided to join the league.

Unless conditions change Athabasca Landing threatens to become one large camp according to George H. Lang of that town, who is in Edmonton. It is almost impossible, he says, to obtain a bed in the Landing as there are being laid in feed stables and every room in the hotels contains five or six cots. The spring rush is expected will largely increase the army of tenters.

John McMillan, William Bennett and Emory Anderson appeared before Magistrate Cowan yesterday afternoon charged with breaking into the second-hand store of St. J. Walsh on First street. They were remanded until this afternoon at 2 o'clock. It is considered probable that they will be committed for trial on their appearance this afternoon.

It is possible that Aid. H. L. McInnis and Commissioner Cundy may take a trip to London, England, to negotiate the purchase for the city of certain portions of the Hudson Bay Railway. A letter has been received from H. L. Ingram, secretary of the company in the old country and it is any later arrangements can be made the two will make the trip. The Edmonton city police are in receipt of a letter from C. Phillips, 475 Treston avenue, Winnipeg, asking that they locate his 37 year old son, Joseph, who left Winnipeg about eleven months ago without the knowledge of his parents. The father stated that the boy wrote home about two weeks ago from Edmonton stating that he was starting and that he was sleeping in box cars as well as being scantily clothed.

WAS IN SASKATCHEWAN WRECK.
J. McPherson, of Winnipeg, formerly of the Edmonton Journal, was among those in the train, one of the cars of which was wrecked by jumping from the C.N.R. bridge at Saskatoon, several days ago. Speaking of the accident, he says: "I heard a bump that sounded as if the roof was being brought down. The train stopped with a jerk, throwing people out of their seats, and I jumped off the train to the foot path. I ran to the end of the bridge and saw the other coach lying in a mass of debris at the bottom of the bank. It seemed as if it was hardly half a minute before it was all ablaze."

THREE FIRES YESTERDAY.
The city fire department had three calls yesterday to extinguish small fires. Very little damage was done at any of the fires. At 12 o'clock a heating stove in a C.N.R. refrigerator car exploded. Number 2 the hall was called out and put out the blaze with chemicals. At 1:59 p.m. a small blaze was caused in a vacant house on Sybilville avenue, opposite the car barn, by children playing with matches. No. 2 fire company easily extinguished the fire shortly after 10 o'clock last night the fire started on a street car at the new auto truck at No. 2 fire hall given its first test at fire hall climbing when it was called out to a fire in Rudolph's greenhouse on Cherry Park Avenue. No. 2 fire truck made the trip back up the hill without the slightest difficulty. The fire originated from the stove used to heat the greenhouse. The flames were not under control without difficulty. Much damage was done to the greenhouse.

PROPERTY CHANGES

A deal was completed the week by which the Imperial Investment Company secured 37 feet frontage on Jasper avenue, east of the Bulletin office. The Ingersoll Packing Company now occupy the premises. The price paid was in the vicinity of \$1,000 for the frontage. Wm. Sugarman was the vendor.

JASPER AVENUE ENCOUNTER.
An exhibition of confusion with Charles Kitchen and Alexander McDonald as the central figures of interest, attracted a crowd of about three hundred people to the corner of Jasper avenue and First street about 5 o'clock last evening. The appearance of the crowd of the law on the scene quickened the ardor of the two men, who were marched off to the police station and locked up on a charge of being drunk and disorderly.

NEW JASPER AVE. RECORD

The block known as the Pittsford property between Second and Third streets, north side of the street, has been sold to the Hamilton Milling Co. Ltd., 42 Jasper W., through J. V. Carpenter, acting in the interest of the vendor for \$10,000 or \$20,000 per foot frontage which is a record for this part of Jasper avenue.

The purchasers finding their present premises too small for their rapidly increasing business, acquired the property for the purpose of erecting next year a handsome brick block suitable to their needs and in which they will carry on a high class genteel furnishing business. The upper floors will be laid out the most up-to-date manner as suites of offices.

APPLICATIONS FOR LICENSES REFUSED

Commissioners Refuse to License Athabasca Hotels on Grounds That They Are Within 200 Yards of Church Buildings.

The License Commissioners at their meeting yesterday had before them applications for hotel licenses from Athabasca Landing. H. H. Roberts appeared for the Athabasca Hotel Company and J. C. Hendry for the other applicant, Geo. H. Lang. The commissioners present were Dr. Strong, chairman, T. M. Macpherson, Oude and D. C. Byrne, Bank. The opposition to the license was offered on the ground that the proposed hotels are within 200 yards of a church building, whereas section 23 of the Liquor License Act says that hotel licenses shall not be granted where this is the case. "Considerable discussion took place as to whether the building in question constituted a church within the meaning of the act and as to whether the license should be granted for church purposes but was let for meetings of a secular character and the act was made to provide sleeping accommodation as well. The commissioners decided that the objection was a good one and refused to recommend the applications.

WESTMINSTER DEPAUTED.

The Westminster hockey team defeated in the final game for the championship of the league for church school league last night. The defeat gives the Excelsior the championship of the league without a game. It is understood that they are going to change the character of the team to a secular league.
